

THE CIRCLE GAME

LATVIA, OGRES SĀKUMSKOLA

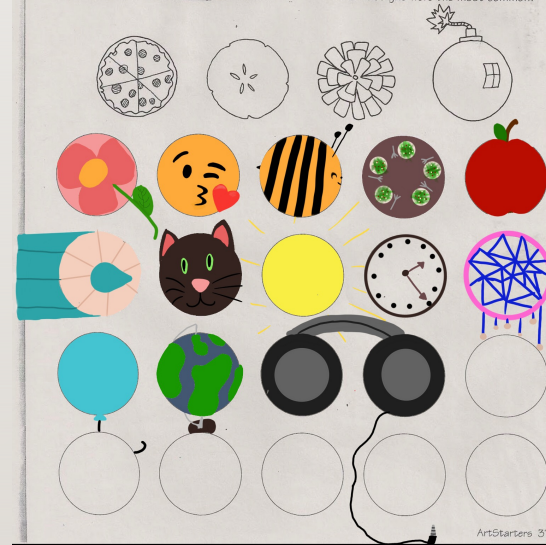

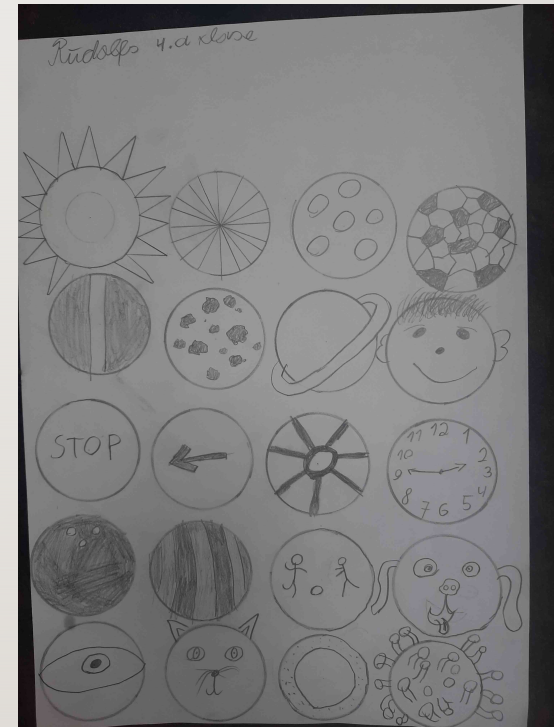

The Circle Game

Draw as many circular designs as you can in 40 minutes. You can use this page or other paper. Search your visual memory files for every circular image you can! Think of both natural and humanmade designs. Game participants should decide before playing whether designs must strictly adhere to a

circle (like the pizza, sand dollar and zinnia) or if you can add to the circle (like the bomb). At the end of 40 minutes, determine:
Who has the most designs?
Who has designs that no one else thought of?
Which designs were the most common?
